Why employ Andy?

Accounting practices can be a busy and stressful environment. They need to meet crucial deadlines, accuracy in calculations and compliance regulations which can put a strain on even the most experienced team. This is where Andy comes in – Andy has been designed with an accounting practice in mind, able to cross multiple customers and multiple accounting platforms, while maintaining quality and auditability standards expected in the industry.

What can Andy do?

- Andy can perform tax reconciliations 10 times faster than a human counterpart.
- Andy takes care of all data capture tasks in a fraction of the time with zero errors.
- Andy frees up human counterparts so they can focus on high value work.
